MISCELLANEOUS.

CONSTIPATION

IS called the "Father of Diseases," because there is no medium through which disease so often attacks the system as by the absorption of poisonous gases in the retention of decayed and effete matter in the stomach and bowels. It is caused by a Torpid Liver, not enough bile being excreted from the blood to produce Nature's own cathartic, and is generally accompanied with such results as

Loss of Appetite,
Sick Headache,
Bad Breath, etc.

The treatment of Constipation does not consist merely in unloading the bowels. The medicine must not only act as a purgative, but be a tonic as well, and not produce after its use greater costiveness. To secure a regular habit of body without changing the diet or disorganizing the system

"My attention, after suffering with Constipation for two or three years, was called to Simmons Liver Regulator, and, having tried almost everything else, concluded to try it. I first took a wineglassful and afterwards reduced the dose to a teaspoonful, as per directions, after each meal. I found that it had done me so much good that I continued it until I took two bottles. Since then I have not experienced any difficulty. I keep it in my house and would not be without it, but have no use for it, having cured me."—GEO. W. SIMS, Ass't Clerk Superior Court, Bibb Co., Ga.

PIANOS.

GAINED FIRST PREMIUM FOR GREATEST merit at the New Orleans Cotton Centennial and WORLD'S Exposition for refined and wonderful power of tone, elegance of design, and superb finish. Only piano endorsed by United States commissioners, from each of the States. Cases finest carved, rosewood finish; finest imported double repeating action—three strings throughout of best patent steel wire—keys best ivory. Our new patent steel tuning device, instead of wood, is the greatest invention ever made in pianos. It consists of stationary STEEL tuning pins that are set in a mold and molten STEEL is run round the pins keeping them solidly in place. A thimble or shell pin is made to exactly fit the stationary pin revolving therein; thus the strings wind round the pins. After the strings are properly stretched the piano can never get out of tune, the rest plank being of STEEL, not affected by extremes of climate. This will be be appreciated by all musicians in city or country. It will stand twenty years without tuning and is good for 100. No other piano has this improvement.

Great strength and durability is another advantage. In other pianos holes are bored in wooden boards and tuning pins inserted. The pins turn round in this board and cannot stand permanently in tune, and it often cracks, splits, dry s out, becoming utterly, totally and entirely worthless as a musical instrument. Our STEEL tuning device is in no way affected by such casualities, and the sounding board is so constructed that our pianos can never become thin or metallic in tone. They are always in tune and the expense of tunning is saved. This patent alone is worth millions and makes our piano the greatest in the world. Prices are no higher than other pianos. Buying direct from us, the largest manufacturers, you save $100 or $200—dealers' profits. Don't mind the ominous growlings of dealers and agents, who see their chances of selling a poor piano at a big profit of $200—slipping away—pity them.

We guarantee our pianos ten years. 200 styles. We have put our prices at lowest bed-rock for Cash.

A $600 Piano for $259.50; a $900 Piano for $297.50; a $1200 Piano for $375.50; a $1500 Piano for $475.50.

Upright Cabinet Grands, with stool and rubber cover shipped on board cars at S. F., to any part of the United States, Canada or Mexico. Our terms are cash with order. If not as represented money returned. We occasionally have good second-hand pianos, made over at $100 to $200, which we take in part payment for our own. Write or call for catalogue, free.

JEWS OF MIXED BLOOD.

Changes of the Original Stock—Tribes of Pseudo Jews.

Since M. Renan, some three or four years ago, expressed his doubts as to the purity of the Jewish race, the hitherto received opinion on that subject has been somewhat shaken. The question, though unscientifically raised, can only be scientifically settled; but we may point out, as a matter of popular interest, that even if the main body of the Hebrew people has preserved an untainted lineage, which is very likely, it has at any rate acquired a considerable fringe of indubitably spurious elements. This fringe is composed partly of pseudo Jews and partly of crypto Jews, the former being mainly descendants of Gentile proselytes openly professing Judaism, and the latter consisting of more or less sophisticated descendants of Jews outwardly conforming to the dominant religions of the countries in which they live, but secretly observing their ancestral faith. These two divisions of what may be termed the borderland between the Jewish and the Gentile worlds have again smaller borderlands or fringes of their own through which they merge into one another.

As throwing light on the spasms of proselytism with which, in opposition to their traditional practice, the Hebrews have occasionally been seized, these pseudo Jews are of considerable interest to the student of religious history. The largest community of them are the Falashas of Abyssinia, numbering, it is said, between 200,000 and a quarter of a million souls. Although they pretend to be descended from King Solomon and the Queen of Sheba, ethnologists have failed to discover among them any traces of a Hebrew type. That originally they were strangers in the land is, however, shown by their name, which means "immigrants."

Besides the Falashas, there are several tribes in Africa professing Judaism, or claiming descent from Jews, who, in so far as their ethnological type is a matter of doubt, must also be regarded as belonging to the fringe of Jewry. Among the Beni-Mzab, on the frontiers of Algeria and Tunis, are several pseudo Jewish clans, and all over the Sahara the Daggatoun boast of a Hebrew ancestry while professing Mohammedanism. A Moorish Jew, who wrote an account of the latter people, explains their name to mean "Jews who have changed their faith," a doubtful piece of philology which has, however, its historical value.

In Madagascar and on the Loango coast are two further small contingents of pseudo Jews, the "Zafy Ibrahim" or "Progeny of Abraham," and the "Mavamba," or "Judeos." The former do not differ in their physical type from their neighbors, and their Hebrew traditions and observances are, perhaps, only a remote vibration of the Judeo-Arabic influence. The Loango "Judeos" are a superior kind of negroes, alleged to be descended from survivors of the 2,000 Jewish children who, in 1493, were torn from their parents by Don Joao II, of Portugal, and transported to St. Thomas.

Asia is full of varying degrees of the fringe of Jewry, if the traditions of some scores of peoples and tribes are to be trusted. The whole continent has proved a happy hunting ground for the amiable enthusiasts whose game is the Lost Tribes. Of actual pseudo Jews, as we have defined them, there are, however, only a couple of specimens—the black Jews of Cochin and Malabar and the Jews of the interior of China. Both profess fairly orthodox forms of Judaism, and both assert that they are of pure Jewish descent; but the investigations of competent observers have shown the former to be of Hindoo race, while the little we know of the latter seems to indicate that they are Mongols, with a slight admixture of Hebrew blood.

Of the Chinese Jews we have no very precise or reliable accounts. They are said to be of a very strong Mongolian type. On the other hand, the records prove them to have been at least in contact with pure Jews; and it is probable that they are a cross between these Jews and native proselytes. Crosses of this description are usually infertile—a fact that goes far to prove the purity of the main body of the Hebrew race—and the so called Chinese Jews present all the unfruitful characteristics of hybrids. In this respect they resemble the two great bodies of pseudo Jews which are to be found in Europe, the Karaites of South Russia and the Sephardim of England and Holland.

Historically the Karaites are even more interesting than the Falashas. They are a remnant of the Finnish kingdom of the Khozars, which was converted to Judaism in the Eighth century, and which for a time disputed the sovereignty of the east with the emperors of Byzantium.

That the Sephardim of England and Holland are not pure Jews is a statement which may cause some surprise. While, however, the Sephardim of Italy and the east are mostly descendants of the undoubtedly pure Spanish Jews expelled from the peninsula in 1492, the bulk of those in western Europe are the offspring of Marranos, or crypto Jews, who outwardly conformed to Christianity in order to escape the edict of expulsion, and who, to hide their religious identity more effectually, gave up their racial distinctiveness. There is scarcely a Marrano family which cannot be proved to have received some infusion of Gentile blood; and it is a singular fact that in England at least, while the Ashkenazim, or central European Jews, show an exceptional fecundity the Sephardim are gradually dying out.—St. James' Gazette.

Prettiest Sight in Mexico.

The prettiest sight in Mexico is the Paseo de la Reforma, stretching, treelined on either side, from the statue of Carlos IV to the castle of Chapultepec, when, of a morning, scores of riders, many of them in picturesque Mexican costume, dot the long roadway, the trappings of the horses flashing in the sunlight and the mettlesome steeds giving animation to the scene. Many rich Mexicans use saddles, costing $500, silver mounted and inlaid beautifully. Hats with gold braid, costing $100 and more, are frequently worn, and the tight fitting black trousers with silver buckles up the outer seams, and the short charro jacket, make up a riding costume unique in beauty and elegance.—Cor. Boston Herald.

Diamond Setting by Machinery.

"Ten years ago," said a manufacturing jeweler, "there was but one diamond cutter in the city. When he got sick there was nobody to cut a diamond. Now there are plenty of cutters, and they use improved machinery, by the use of which they can cut diamonds better and more cheaply that it can be done anywhere in the world. Our diamond cutters can take many imported stones and add 25 per cent. to their value by improved cutting. The obvious increase in the number of diamonds worn has compelled the education of workmen to meet the demand.

"Another thing has been done. This is an invention of the American manufacturer, and consists of the application of machinery to diamond setting. The old time workman would have considered with horror the idea of putting anything but hand work on a piece of diamond jewelry. Everything about it had to be done by slow and laborious hand work. But a shrewd workman got the idea that a good deal of the setting of a diamond may be done quite as well by machinery as by hand, and a good deal quicker and more cheaply. The fact is that where many diamonds are set they resolve themselves into sizes about as regular as the sizes of any other commodity. It is easy enough to prepare settings to suit any size of diamonds that are sold in the market.

"It may seem a trifling thing to estimate the cost of a setting—or at least the difference between a hand made setting and a machine made setting; but the inevitable result of competition has been to get the cost of manufacturing even diamond jewelry down to the lowest rate. As to the value of the diamond itself, the experts have become able to fix that to a nicety."—New York Sun.

Illusions and Hallucinations.

Morbid psychology is a rubric of paramount importance to the full and clear comprehension of the phenomena of mind. The genesis of illusions and hallucinations, the perversion of the natural channels of the emotions, the disintegration of the elements of personality, the dissolution of the logical powers—all these problems transform the apparently wild and chaotic picture of the madhouse into a sad but interesting record of the process of character and of mind building. This interest is heightened by remembering that here lies the key to the understanding of the psychic epidemics that in the past have upset the rationality of mankind, and transformed the incoherent babbling of some demented soul into the mysterious utterances of a revealed spirit. It is furthermore heightened by the notice that the phenomena conveniently grouped as "psychic research" are attracting, and always will attract. Hypnotism, after an adventurous and uncertain existence in the hands of charlatans, has been admitted into science; and although the literature of the topic, at least in France, is increasing out of all proportion to our insight into the nature of the phenomena, yet enough has been established to recognize in this semi-morbid condition the key to the solution of many otherwise barely accessible problems. With regard to those borderland phenomena—"telepathy," "clairvoyance," and the like—they illustrate the subtleness of the process by which false systems gain success, and demonstrate the advisability of having men who can speak on such topics with the authority of trained experts.—Joseph Jastrow in Science.

Curious Experience in Barbados.

Lying beyond St. Andrews, a long drive from Bridgetown, and occupying the eastern face of the northern end of the island, are a series of remarkably steep cliffs, that climb out of the sea to a perpendicular height of hundreds of feet. To their bases come along Atlantic swells that have met no hindrance to their will for 3,000 miles, and these attack this rocky barrier with a fierceness that gives to the coast some of the most magnificent sea effects that I have ever watched. Even North Irish or Hebridean cliff surges were but baby play beside them. Striking with a boom, they mounted almost to the summit with a green, glassy rush that reminded me of Niagara just above the fall; then combing into spray, lashed out greedy fangs of foam at the looker on, and retreated with a roar like near and heavy thunder.

They followed in quick succession, each seeming to climb a little higher than the last, until one's senses were quite upset by enormous force, and we experienced a curious illusion of motion. Land and wave were waltzing to the music of of the sea. An infernal one, two, three, one, two, three movement began; solid rock lost its anchorage, and the world went round and round until giddiness came and the steadiest head dragged the rest away. There was a wild look in my companion's eyes, and she was half hysterical when the earth regained its senses a little away from the orchestra's reach.—Dr. William F. Hutchinson in American Magazine.

Woodcraft of the Cuban.

The woodcraft of our vaquero, Jose, had many extraordinary illustrations. Striking his machete into a beautiful tree he brought it forth ejaculating most dramatically: "Mira! la sangre de la Doncella!" ("See! the blood of the virgin!") The blade was dripping with blood red sap of a red wood known as carne de doncella or virgin flesh. Again when we had become thirsty and could find no water, Jose knew a back door out of this dilemma. "Here is Aaron's rod," said he. "I will give you water." With this he struck a large vine twice, severing a piece as big as one's arm from the parra cimarona or wild grape, and from the mouth of the hanging tube we drank our fill of winy, refreshing sap.

So, too, his seductive calls of the wild pigeons, of which we found four varieties, were astounding. He would first with his hands make sharp, loud clappings, grading these down to sounds as low as the soft flapping of wings. This would be followed by a vocal call so like that of the wild pigeon that one seemed nestling there above our heads. To these would come low, half doubting answers from all about us, and finally the scurrying and rustling of the deluded birds above.—Edgar L. Wakeman in Philadelphia Times.

Viscountess Valencia urges the importance of women being able to make their own clothes.

West Point Cadets' "Skin Board."

Up in his office the major of infantry who commands the battalion of cadets is busy with the arduous duties of his position. Hanging in the lower hallway that leads to his office is a huge frame filled with closely written sheets of paper. This is the delinquency list, or in cadet slang, the "skin board." Approaching it we read:

"Anderson—Wearing cap in quarters at police inspection.

"Armstrong—Odor of tobacco smoke in quarters at inspection by officers of the day.

"Billingsgate—Using profane expression 9:15 a. m.

"Same—Absent from room at a. m. inspection.

"Brooks—Slow extinguishing light at taps," and so on throughout the long list. On Friday punishments fitting their respective offenses will be awarded the delinquents.

Academic regulations are very strict, being the combined result of the experiences of a long line of superintendents, and any cadet who could and would go through his whole four years' course without breaking any of them should, at its close, be graduated straight through the pearly gates and receive a golden harp instead of a diploma. He, during his four years' course, would have carefully refrained from the use of stimulants, bad language and tobacco in any form; would have attended divine service at least once a week; would have lived with his comrades in a spirit of brotherly love; would have kept his shoes bright, his collar spotless, and would have been promptly on hand for every one of his manifold duties. Such is the ideal cadet, and the regulations are intended to make the real ones approach as near to him as possible. But, alas! they are all sons of Adam, and the "skin list" is the unfortunate result.—Lieut. E. W. Lewis in Inter Ocean.

Fast Travel on the Ocean.

It gives a confirmed landsman a cold chill when he reads that the Etruria ran through fogs at a rate almost equaling an express train. Is this kind of thing safe? That is the question. The opinions of those who ought to know are almost unanimously in favor of getting out of a fog just as quickly as possible, and there seems to be no question but the driving through a fog at a high rate of speed is the best thing to do under the circumstances.

The only vessels lost during recent years have been lost while either standing still or going slowly. If the Oregon had been going faster she would not have been struck. Still the same may be said if she had been going very much slower. The City of Brussels was standing still in a fog when she was run down. In many respects a fast steamer has great advantages over a slow one. She can keep in the position she wants to in a storm, and in many cases she can avoid a storm altogether or outrun it or get on the outer edges of it. A steamer going at a high rate of speed will answer her helm much better than a slower boat. When a steamer slows down the roar of escaping steam renders it impossible to hear anything except the roar. When she is going at full speed everything is as quiet as it is possible to be, and the whistle of an approaching steamer can be heard and to a certain extent located. If a steamer takes two days instead of three days to get through a fog bank it is evident that the percentage of danger is lessened just that much.

So in spite of what the papers have been saying of the recklessness of running a big ship through a fog at good speed, it seems to be the safest thing to do.—Detroit Free Press.

Flowers in Popular Lore.

It is a remarkable fact that flowers have usually been regarded as beneficent in popular lore. While animals are frequently diabolical, flowers are seldom accredited with any malign influences. Their connection with religion has ever been an intimate one, and their beautifying use in the important ceremonies of life—at marriage, death and burial—have always endeared them to every one, so that their mission has always been a softening and humanizing one. Many of the humblest flowers and most neglected weeds have been regarded as sacred at some time or another.

This fact of the good will held towards flowers in popular lore is partially shown by the beneficent names applied to them, as heart's ease, traveler's joy, shepherd's needle, honesty, etc. There are, however, some exceptions to this beneficent character. In Silesia it is said that flowers should not be laid on a sick person's bed. In Westphalia, no child should be decked with flowers until it is a year old, as it would die soon, and the flowers wither. German peasants say flowers should not be laid on the mouth of a corpse, lest it bite them and become a Nachzehrer, or sort of vampire. In England, to dream of white flowers means death, and the same is indicated by the sudden blooming of a white rose bush. Any one who throws a rose into an open grave will waste away.—F. S. Bassett in Globe-Democrat.

In a Morocco Bakeshop.

In going through the city to the Jews' quarters I stopped at an Arab bakeshop, where I saw a pleasant looking chap, hoping I should get an invitation to visit his establishment, but as it did not come, I invited myself and walked in. The wheat is ground by hand between two flat stones, and sometimes when a mother is grinding she will amuse and utilize her child by seating him on the top stone, giving him a ride and increasing the milling power at the same time.

The Moorish oven is a big mud room perhaps twenty feet square by six high, and the loaves, shaped something like an apoplectic mince pie, are ranged on both sides of this room, a fire of palm branches and bamboo then being built on the floor between the rows of bread. This fire is fed constantly by a boy standing at the entrance with an arrangement something like a Tremont Temple contribution box, on which he places the fuel for the nearest fires, but the farthest he feeds by taking an armful of stuff, rushing into the oven and throwing it upon the heap. The bread from this practice has a mingled taste of smoke and fried Moor, which is perhaps more healthy and strengthening than agreeable to the uncultivated taste.—Morocco Cor. Boston Transcript.

The author's real name must accompany all communications, not necessarily for publication, but as a guarantee of good faith. This rule will not be deviated from.

THE CELEBRATED CASE.

On Monday last Judge Field decided the celebrated Hill-Sharon case against Mrs. Judge Terry *nee* Hill. The Court among other things annulled the marriage contract on the grounds that the document was a forgery. To those who do not know Judge Terry, who is the leading counsel for the plaintiff, his wife, it would appear that he had lost his case. Not so, however. He is one of most learned and successful lawyers in the United States, and we believe has never yet undertaken a case that in the end he did not win. He firmly believes in the validity of the marriage contract entered into between the late Senator Sharon and Miss Hill. Was this not so he never would have been of plaintiff's counsel, much less would he have married her. His sanguinary duel with Senator Broderick twenty-nine years ago, was the unfortunate episode of his life. At that time he was Chief Justice of the Supreme Court of this State while Broderick was a United States Senator. The meeting between the two was brought about by the hot-headed partizans of the principals. Duelling was considered the proper thing in those days, and when Broderick challenged Terry to mortal combat he took his chances and—was slain. Judge Terry was duly tried and acquitted. The meeting between the two was a most deplorable occurrence, as it deprived one man of his life while that of the other has rested under a cloud, as it were, for almost thirty years. In truth neither of the principals were responsible for the meeting. The encounter was brought about by others and sustained by public opinion, but notwithstanding this the Judge has been handicapped in the race of life by this unfortunate affair, and to-day there is a deep-rooted prejudice against him in this State created by the duel which has been transmitted from one generation to another, and which now and then crops out in the country press, whose editors know nothing of the man personally. It is the old old story of the ass braying at the lion.

A man of massive frame and mighty intellect, he has held his own, however, and knows no such words as fail, and although courts may bow down meekly before the temple of Crœsus, we venture the prediction that in the face of Sharon's millions Judge Terry will yet win the celebrated case in which he has entered heart and soul.

JUDGE TERRY has brought suit to recover $10,000 damages from Marshal Franks for false imprisonment. This suit is the outcome of the little unpleasantness which occurred in the U. S. District Court room in San Francisco last Monday.

A Lady's Testimony.

The Swift Specific Co., Atlanta, Ga.

Gentlemen—One of my lady customers, who was sorely afflicted with rheumatism and weak back for a long time, has been completely cured by the use of Swift's Specific.

T. C. LEWIS, 209 Texas St.

Shreveport, La., June 15, 1888.

The following certificate speaks for itself:

Office of RUBY GOLD GRAVEL CO. 320 Sansome St., San Francisco, Cal.

November 12th, 1887.

The Swift Specific Co., Atlanta, Ga.:

Sirs—Having for the past four or five years been troubled with pimples and blotches on my face and body, and finding no relief in any of the chemically prepared soaps and medicines prescribed for me by physicians, I concluded to try your S. S. S. remedy, and have found great relief in the same, four bottles clearing my skin entirely. I cheerfully recommend your medicine to all who are in the position that I have been in. You can use this letter and my name as a testimonial to the merits of the S. S. S. remedy. Very truly yours,

A. P. ROBINSON.

Treatise on Blood and Skin Diseases mailed free. THE SWIFT Specific Co., Drawer 3, Atlanta, Ga.

BOARD OF SUPERVISORS.

MONDAY, September 3, 1888.

The Board met in regular monthly session in the Court House this date at 10:30 A. M., all members present, John O'Hara presiding.

The Board was occupied during the morning session in the consideration of Road Overseers' reports. The reports of the following-named Road Overseers were received and placed on file and the accompanying bills allowed: Gallant Rains, Petaluma road district, $260.43; D. W. Long, Vallejo, $536.94; A. R. Bell, Healdsburg, $40; Thomas Furlong, Bodega, $93,35; C. Y. Calwell, Santa Rosa, $144; H. A. Russell, Fulton, $72,65; A. J. Packwood, Russian River, $81.60; W. F. Harris, Washington, $142.25.

At 12 o'clock an hour's recess was taken.

AFTERNOON SESSION.

The Board reassembled at 1 P. M., members present same as in the morning. On motion of Mr. Connolly, the communication from G. T. Austin in regard to making provision for the construction of a new road in Redwood and Mendocino townships, known as the "Mercury" road, was received and placed on file, and it was declared the sense of the Board that the necessary provisions should be made after January 1, 1889.

A. Wehrspon having refused to accept the award of damages made by the Board in compensation for the loss likely to be sustained by him on account of the change of road petitioned for by George Harvey and others, the District Attorney, according to the terms of a prevailing resolution introduced by Mr. Coulter, was instructed to institute suit against said A. Wehrspon to secure the right-of-way for said proposed change of road.

On motion of Mr. Coulter, the contract for furnishing supplies for the County Farm and Hospital, during the months of October, November and December was awarded to Howell & Bryant.

At 5 P. M., the Board adjourned until Tuesday morning at 9 o'clock.

TUESDAY, September 4, 1888.

The Board reconvened this date at 9 A. M., all members present, Chairman O'Hara presiding.

On motion of Mr. Coulter, the report of the viewers appointed to view and lay out a private road in Bennett valley over the lands of H. Kirsh and others, as petitioned for by S. Botten, was approved and placed on file, and said road was declared the private road of said petitioner, he to erect and maintain the necessary fences and gates as prescribed by the Board.

At 12 o'clock a recess was taken until 1 P. M.

AFTERNOON SESSION.

The Board reassembled at 1 o'clock, members present same as at morning session.

E. H. Puckett having appeared before the Board and signified his willingness to remove all gates from the highway over his land in Vallejo township, upon payment by the county to him of the sum of $276.46, Mr. Allen moved that said offer be accepted.

Inasmuch as the change of boundary lines in Bloomfield voting precinct as petitioned for by S. McReynolds, W. A. Sanders, G. W. Barnett and others, would create an unequal division of the property in the township, the petition on motion of Mr. Allen, was denied.

The reports of Road Overseers Tim O'Reilly, of Knight's Valley, and E. F. O'Leary, of Analy, were received and placed on file and their respective bills allowed to wit: $41.50, $42.25.

On motion of Mr. Coulter, the Road Overseer of Analy township was directed to repair the lower Laguna bridge by removing the two spans at the channel of the stream and replacing them with a forty-eight foot queen truss.

On motion of Mr. Connolly, the boundary lines of Occidentol precinct were changed so as to embrace all of the lands of G. C. Taylor and J. N. Chenoweth.

On motion of Mr. Allen, certain changes were made in the Forestville precinct.

At 5 P. M., an adjournment was taken until Wednesday morning at 9 o'clock.

WEDNESDAY, September 5th.

The Board reconvened this date pursuant to adjournment at 9 A. M., all members present, Chairman O'Hara presiding.

On motion of Mr. Connolly, the petition of H. A. Richardson and other citizens of Salt Point township asking for a change in the boundary line of Stewart's Point voting precinct was made the special order for October 2d, at 10 A. M.

On motion of Mr. Coulter, the Clerk was authorized to inform the trustees of Austin Creek School District that the Board had no jurisdiction in the matter of creating bonded indebtedness in the district, as the papers sent in did not contain evidence of a compliance with the provisions of Sections 1861-2-3 and 4 of the School Law.

At 12 o'clock an adjournment was had until 1 P. M.

AFTERNOON SESSION.

The Board reassembled at 1 o'clock.

On motion of Mr. Connolly the following reports were received and placed on file: J. M. Zane, Pound master Sonoma Road district; C. W. Hawkins, Superintendent County Farm; Dr. R. P. Smith, County Physician; A. P. Moore, County Auditor; G. A. Tupper, County Treasurer and John Brown, Justice of the Peace, Santa Rosa.

From the Treasurer and Auditor's reports the following items are taken:

Auditor's report—Receipts during the months of August, $14,524.08; disbursements, $18,543.09; balance on hand September 1st, $84,474.49.

TREASURER'S REPORT.

RECAPITULATION.

General fund balance	10,788 66
School fund app't	31,564 74
School fund	7 81
State fund	4,851 71
Rebate fund	26 94
Indigent fund	5,175 17
Revolving fund	1,323 23
Bond fund	6,900 69
Road Fund Apportionment	10,492 04
Unapportioned fund	6,103 05
Road fund	697 25
Swamp and overflowed land fund	6,213 94
Teachers' Institute fund	171 70
General Road fund	157 25
Register State Land Fund	3 00
Total	$84,471 89
Outstanding bonds	278,000 00

One o'clock being the hour set for opening the bids for the construction of a new span in the Guerneville bridge, the Clerk read a number of bids, which, after due consideration, were rejected one and all, on motion of Mr. Coulter, as being too high.

At 5 P. M., the meeting adjourned until Thursday morning at 9 o'clock.

Blackrot and Mildew.

The information recently received from Vineland, New Jersey, is to the effect that the experiments which have been conducted the present season on Colonel A. W. Pearson's fruit farm under the supervision of the United States Government, have resulted in some valuable and important discoveries, particularly regarding the culture of the grape. Professor Scribner of the Agricultural Department, who has spent some days there, expressed satisfaction as to the results already attained. It has been demonstrated that spraying the vines frequently with a solution of sulphate of copper and lime, known as "Bordeaux mixture" will effectually prevent both mildew and blackrot. The spraying was begun on the Pearson farm on May 28th, and effectually prevented the rot where the clutches were exposed to the spray. Microscopic examination revealed the fact that the berries, after spraying, where encased by a metallic coating, which protects the grapes until washed off by heavy rains or cracked by growth. The department recommends that the spraying be commenced a week or two previous to blooming or about the middle of May. Experiments are being made with a view to finding preventives of fungus on the foliage of apples, pears and cherries. The "Bordeaux mixture" is prepared as follows. Dissolve 16 lbs. of sulphate of copper in 22 gallons of water; in another vessel slake 30 lbs. of lime in six gallons of water. When the latter mixture has cooled, it is slowly poured into the copper solution, care being taken to mix the fluids thoroughly by constant stirring. It is well to have this compound prepared some days before it is required for use. It should be well stirred before applying. Some have reduced the ingredients to two pounds of sulphate of copper and two pounds of lime to 22 gallons of water, and have obtained good results. Well made pumps with specially constructed nozzles are required for the application of this compound, unless we resort to the tedious and wasteful method of using broom wisps made of slender twigs, which are dipped into the compound and then switched right and left so as to spray the foliage.

Hints on Grape Drying.

The subject of grape drying, which is a prominent one in this State at present, is now being agitated in Livermore valley. The experiment was tried in Fresno last season with success. Almost any variety but Burger will do, and Eastern correspondence has developed the fact that there is a brisk demand for all that can be supplied. The Fresno output last season was sold at 3½c a pound—equal to about $52 a ton for the grapes; but Eastern commission men predict even better prices this year. At the viticultural meetings recently, it was held that the grapes could be easily dried in the open air in Livermore, probably in about 14 days. Clean gravel was recommended as the best place to dry, and trays could be used to cover the grapes in case of rain. Grapes to be dried should be very ripe—even left to shrivel a trifle; or the stems may be twisted, and the bunches left to dry on the vine. These grapes are used by poor people, in lieu of raisins, and make a very good substitute for use in puddings and cakes. This opens a new industry in this valley, which will dispose of many of the wine grapes and tend to improve prices for the remainder.—*S. F. Merchant.*

Don't Pull Up the Vines.

The price of wine grapes is low this year, and some of the grape-growers talk of pulling up their vines. They would be foolish to do so. California's vintage is but a drop in the world's wine cask. There are only about 150,000 acres planted to the vine in this State, while over a million acres of vineyards have been destroyed in France by the phylloxera. The demand for pure wine is steadily increasing, while the world's production of it has diminished of late years, owing to the diseases of the foreign vines. The present low price of grapes is due more to a combination among the wineries than to any other cause. It is but a local and temporary depression. The market is sure to revive. In the long run the vine is certain to hold its own, and large profits will yet be made from the California vineyards of wine grapes. But the most profitable vineyards in the State may always be those of the raisin and table varieties. In some vineyards it may be advisable to graft the Muscatel upon the wine varieties.—*Marysville Appeal.*

A WOMAN'S WAY.

A Startling Business Proposition.

A little over six weeks ago Mrs. Fowler of 327 Ellis street, San Francisco, stopped in at a leading city druggist's to ask what effect Joy's Vegetable Sarsaparilla, about which she had heard so much recently, would have in cases of dyspepsia and sick headache. She was assured that in most cases it would relieve both. She was, however, so incredulous that finally the druggist gave her a bottle, not to be paid for unless it effected a cure. A proposition so startlingly practical has seldom, if ever before, been made. The following just received is the convincing conclusion, and tells its own story:

San Francisco, February 6, 1888.

DEAR SIR:—I write to admit that, notwithstanding my misgivings, Joy's Vegetable Sarsaparilla did all that you promised. I had tried so many prescriptions, to no purpose, that I had come to believe nothing would relieve my dyspepsia and sick headaches, but I have not had a return of either since I commenced taking it. I believe I am permanently cured, but will, out of an abundance of caution, continue to take it regularly for a while yet. You have my permission to make this public, for it is my belief that a remedy that will cure dyspepsia and prevent sick headaches should be generally known. Respectfully,

Mrs. M. Fowler,

327 Ellis street.

A LUCKY TRIAL.

DEAR SIR:—It affords me great pleasure to send you this voluntary statement of my experience in testing the merits of Joy's Sarsaparilla. For the past five years I have been troubled with an exceedingly sluggish liver, and within the past two years it has brought within its trail a thoroughly disordered stomach, including loss of appetite and distress after eating, pains in the back and kidneys, and boils around my neck and face. I have tried several remedies which are advertised as specially for the liver, and never could get more than temporary relief of about a week or two. I was recommended to try a bottle of Joy's Vegetable Sarsaparilla as a last, and while taking the first bottle I became convinced of its merits for I could feel it was working a change in me. I have taken five bottles, and during that time my troubles have left me. Everything is working full and regular, in fact it has cleansed, purified and braced me up generally. I feel like a new man. You are at perfect liberty to use this as you see fit, or you can refer whom you please to

Chas. Olea

With Beamish, corner Third and Market streets, San Francisco.

Ask for Joy's Vegetable Sarsaparilla.

One pint of the juices of Vegetable alterative peculiar to California, combining the most effective liver and kidney remedy, blood purifier, stomach regulator and vegetable laxative in all ones. At druggists. 6 for $5.

NEW TO-DAY.

HOOD'S COMPOUND EXTRACT OF SARSAPARILLA TRADE MARK

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health.

At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and Hood's Sarsaparilla is worthy your confidence. It is peculiar in that it strengthens and builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. Give it a trial.

Hood's Sarsaparilla is sold by all druggists. Prepared by C. I. Hood & Co., Lowell, Mass.

The contract for carrying the U. S. mails between Sonoma and El Verano station, a distance of about two miles, has been awarded to Granville Harris. The service will commence on the 20th inst.

The Democratic delegates of Sonoma Township met last Saturday and nominated the following township officers: Justice of the Peace, J. B. Small; Constables, G. W. Sparks and J. A. Box; Road Overseer, John M. Hendley.

E. P. Thomson of Agua Caliente reports that his vineyard will produce less than half a crop this season owing to the torrid weather of the past four weeks. He says the same can be said of most of the vineyards in the upper part of the valley.

Ed. J. Livernash, formerly editor of this paper, and later on a student at the Hastings Law College and still later a practicing attorney at St. Helena, and later still the proprietor of a weekly paper in San Francisco, has accepted the foremanship of a newspaper in Ukiah.

Capt. H. E. Boyes and S. H. Hamilton returned last week from a three-weeks' hunting trip in Mendocino county. They report game quite plentiful and the country as dreadful rough up that way. They succeeded in killing four deer, and a bear that weighed when dressed about 200 pounds.

The hot spell still continues, and in consequence the prospects for anything like an average grape crop in this valley grows small and beautifully less every day. Mildew, too, has made its appearance in many vineyards that were not sulphured, and as a result wine-growers are thoroughly disgusted and disheartened.

Duck shooting has commenced in the marshes several miles southeast of town. One party bagged 12 mallards near McGill's in an hour-and-a-half's shoot one day this week. The birds are killed from a blind as they fly in toward the fresh water ponds of an evening. The best shooting is had on moonlight nights between 7 and 11 o'clock.

P. L. McGill, for the past two years Road Overseer of Sonoma Township, announces himself in these columns as an independent candidate for Road Overseer of this township. Mr. McGill, during the two years that he has held the office, has greatly improved the roads in this township. He needs no endosement from us. His work on our roads is all that he requires.

The statement made in these columns last week that the unknown man who committed suicide in the cemetery possessed no jewelry was erroneous. It now transpires that he owned a valuable gold watch and chain, and Mr. Henry Raschen states that he wore the same the afternoon he left his hotel and proceeded to the cemetery. The question is, what has become of the jewelry? Did the man bury it near the spot where he took his life, or was the body pilfered by some passer-by.

The Democratic delegates of Sonoma and Vallejo Townships met in this place last Saturday afternoon to nominate a candidate for Supervisor, and after deliberating several hours John O'Hara of Vallejo Township, the present incumbent, was nominated. Sonoma had several aspirants for the position, to-wit: P. H. Thompson, Henry Weyl and Lewis Adler. After a ballot had been taken without result Mr. Weyl withdrew, as did also Mr. Thompson. This narrowed the contest down to Messrs. O'Hara and Adler, and upon another ballot being taken O'Hara received 10 votes and Adler 3.

DISCHARGED.

Casey, Charged With Attemted Rape, Establishes an Alibi.

Jacob Casey, the workman employed on Behler's ranch, who was arrested last week on complaint of Mrs. Seraphino Herger, who charged him with an attempt to commit rape, had his preliminary examination before Judge Small last Wednesday afternoon. The accused, who is about 24 years of age, set up the defense that the charge was a trumped up one and that the complaining witness and her husband had conspired to get rid of him, as his presence on the Behler ranch, where all the parties are employed, was distasteful to them. T. J. Geary of Santa Rosa appeared for the defense and District Attorney Pearce represented the people. The examination was conducted with closed doors, everybody except the attorneys, court officials, the prisoner and his accurers being excluded. Two witnesses were examined for the defense and two for the prosecution, although each side had a large retinue in reserve. Some tall swearing was indulged in. Mrs. Herger swore that Casey assaulted her while she was preparing breakfast. She testified that he seized her and bore her bodily into an adjoining bedroom, but was prevented from accomplishing his object by the unexpected arrival of her husband who had been attracted to the scene by her screams.

Herger testified that he had started off on horseback about fifteen minutes before the alleged assault. That his horse commenced bucking when a half mile or so from the house and threw him. He picked himself up and followed the animal toward the house and when near the same he heard his wife shouting for help, and upon going to her rescue found her struggling in the bed-room with Casey.

The defendant did not take the witness stand but introduced two witnesses to prove an alibi. These witnesses swore that at the time of the alleged assault the accused was at the Home Ranch, some two or three miles distant from where the Herger's lived. This testimony clearly established the alibi and the Judge, having no other recourse, discharged the prisoner.

Candidates.

Under the head of "Political Cards" appears for the first time in these columns, the announcements of J. H. McNabb, Republican nominee for Assemblyman from this district, and E. P. Colgan, Republican candidate for Sheriff. Both are well-known to the people of Sonoma county.

Mr. Colgan has held the office of Sheriff one term and has made a good and faithful officer. He is a genial, whole-souled gentleman, very popular, and one of the strongest men on the Republican ticket.

Mr. McNabb is a resident of Petaluma and for many years has been one of the editors and proprietors of the "Argus" of that city. He is a Republican from way back, and as such ably represented this county in the State Senate in the sixties, and is in every way a foeman worthy of the steel of his Democratic opponent, Hon. Robt. Howe. As both are gentlemen of the strictest integrity and clean political record the contest between them will no doubt be a high-toned and chivalrous one.

Morning vs. Evening Papers.

Last Wednesday the Santa Rosa and Carquinez Railroad commenced running one train daily instead of two, as heretofore, and in consequence the people of Sonoma Valley do not get the morning papers from the city until 7:25 P. M. Before the Santa Rosa and Carquinez Railroad forced the Napa and Sonoma Stage Company out of business, some six months ago, the daily papers reached this city by stage between 12 and 12:30 P. M. After the stage stopped running the papers came by way of the Santa Rosa and Carquinez Railroad and reached here about the same time as when forwarded by the stage company. Now, however, under the new condition of things and with two railroads running through the valley the people are worse off than ever before, in so far as the morning papers are concerned. The narrow guage cars reach Sonoma at 7:15 P. M., and the Santa Rosa and Carquinez Railroad a few minutes later. The consequence is the evening papers, which come by way of the former road reach Sonoma before the morning papers, which find their way here over the latter road. If this condition of things is not changed in a very short time the result will be that the evening papers will be in demand while the morning dailies will go a begging.

A fatal cattle disease has broken out on the Lewis dairy farm near Petaluma. The disease seems to affect the brain and the first indications are the rubbing of the nose and head against a fence, rock or tree until they rub the skin off. They live but a few hours after taking the disease.

THE FIRE FIEND.

A Costly Residence Narrowly Escapes Destruction.

On Monday night last about 10 o'clock, our townspeople, many of whom had retired, were startled by the cry of "fire." Upon rushing out doors flames could be seen shooting skyward in the eastern part of town, and at first glance it appeared as though the beautiful residence of F. Clewe was being devoured by the fire fiend. Upon arriving at the scene, however, it was discovered that his barn was on fire. Seeing that this was doomed to destruction the attention of those who had been attracted to the spot was turned toward preventing the flames from spreading to Mr. Clewe's $6,000 residence and by hard work the fire was confined to the barn. Luckily the night was a calm one, else in the absence of any appliances for fighting fire the fine residence would certainly have been consumed. The origin of the fire is unknown, but it is presumed to have been caused by tramps. In the barnyard was a horse and cow and several vehicles, which were saved, but the barn and three tons of hay were entirely consumed. There was no insurance on the property which was valued at $400.

Personal and Social.

F. Ehrlich, Jr., accompanied by his sister Miss Harriet, went to the city last Friday to visit friends and relatives.

Misses Carrie and Kate Green, who have been visiting in San Francisco for the past two months, have returned to their home.

Misses Carrie and Pauline Pauli left for San Francisco last Monday morning, where they will reside in the future. The young ladies have many warm friends in this valley, who wish them good health and success in their new home.

A pleasant little birthday party was given to Miss Tillie Cornelius by her parents, Mr. and Mrs. Geo. Cornelius, last Saturday afternoon, the occasion being her tenth birthday. After playing games and enjoying the delicious refreshments served the little friends of Miss Tillie departed for their homes well pleased with their entertainment. The following were present: Nellie Sackett, Addie Sydnor, May McDonnell, Maggie Gaffney, Agnes Wilson, Clara Tivnen, Nena Jansen, Ruth Poppe, Julius Poppe Jr., Lena Cornelius, George Cornelius, Gustav Cornelius and Bertha Cornelius.

Glen Ellen Gossip.

The weather is somewhat cooler and more pleasant.

J. Chauvet is building an extensive addition to his wine cellar.

Grapes are ripening fast and wine-making will soon begin.

Mrs. H. Guerne, an old resident of this place, and who owns a fine vineyard farm near town, was in town last Saturday.

Quite a number of our citizens attended the water suit of Chauvet vs. Hill, which was argued at Santa Rosa last Thursday.

F. P. G. says mosquitoes are thick in the Nunn and Patten Canyons. Probably they are smart enough to know that he is "green."

Tramps come thick and fast and of course are always "hungry and dry, boss." One hungry individual moved our Constable's wood pile for his breakfast. Astonishing, but nevertheless true.

James Shaw has sold his entire cellar of wine and his men are busily engaged in shipping the same.

OLD TIMER.

County Cullings.

There is a child in Santa Rosa eights months old that weighs only three pounds. It is proportionately well developed and in perfect health.

R. J. Diamond, aged twenty-one, and for many years a resident of Petaluma, in jumping from a moving train of cars in that city last Sunday afternoon, was hurled violently against the tank-house and had his skull crushed in. He died two hours after the accident.

Tuesday morning, at 1:30 o'clock, a fire broke out in the unoccupied house of widow Young on Upham street, Petaluma, and before water reached that section, that and the vacant house adjoining on the south were burned down, and Fred Englehart's house on the north side was in a light blaze. About all the furniture of Englehart's house was taken out before the fire reached it. When the fire was put out the building was a mere shell. Englehart's house was insured for $1000 and the furniture for $500. The damage is about $1000. The other two houses were worth about $300. The amount of insurance is not known. The fire is supposed to be the act of an incendiary.

The Safest Medicine

To have about the house at all times is Simmons Liver Regulator. It will harm no one. It will benefit all who may have attacks of Biliousness, Dyspepsia, Headache, Constipation, or other ailments resulting from a disordered Liver or Stomach. Keep it always in the house, and you will have a family physician near who will save you many dollars and much suffering.

The best of accommodations at the Occidental Hotel. +

THE REPUBLICANS.

They Open the Campaign with an Enthusiastic Meeting at Union Hall.

The Republicans, not to be outdone by the Democrats, held a large and rousing meeting at Union Hall last Saturday evening. The hall was crowded, half those present being ladies. The principal speakers of the evening were Messrs. Edward I. Wolfe of San Francisco and Chas. Shurtleff of Napa. After the rendition of the opera of "Carmen" by the Sonoma Brass Band, Jas. McDonnell, Jr., President of the Harrison and Morton Club, announced that B. F. Campbell had been chosen to act as presiding officer of the meeting. Whereupon that gentleman, who occupied a seat in the audience, mounted the stage and in a few appropriate remarks thanked the meeting for the honor conferred upon him. He then introduced Mr. Wolfe. The speaker in a speech of an hour and a half discussed from a Republican standpoint the principal political issues of the day. He was frequently interrupted by storms of applause. He also scored the present administration unmercifully, and be it said to the credit of the Democrats present they took their medicine without wincing. In alluding to the cry of the Democrats that the Republicans were in favor of free whisky, the speaker very wittily remarked that if that were so the Democratic party would be left without a quorum. This sally of wit was heartily enjoyed by Democrats as well as Republicans.

The next speaker introduced was Mr. Shurtleff, who for over an hour discussed in an able manner, all those questions which have a bearing on the great Presidential race which will be run over the national political race course in November. Like the preceding speaker he was frequently interrupted by applause and attentively listened to.

At the conclusion of Mr. Shurtleff's speech, Geo. H. Maxwell was called upon, and made a neat extemporaneous speech. He stated among other things that he came unprepared to make a speech, but before the campaign was over he would address the people of Sonoma on the principal issues of the day. At the conclusion of his remarks the meeting adjourned.

TWENTY-FIVE YEARS.

The Sentence Imposed Upon the Stage Robber.

The stage robber, Joseph Frey, was called into Judge Pressley's department of the Superior Court, Saturday morning, to receive his sentence for the murder of Constable Crigler. The plea of guilty had been accepted, and the crime fixed by the Court at murder in the second degree. The prisoner was ordered to stand up, and, Jacob Wystyrk having been engaged as an interpreter, to interpret the language of the Court in German, Frey's native tongue, he was informed of the leading features of the case and asked if he had anything to say why the judgment of the Court should not be pronounced against him. He spoke a few words to the interpreter, the substance of which were that he had nothing to say, except that he shot nobody, that he was dragged into the crime of robbery by his brother-in-law and that he asked the mercy of the Court. Judge Pressley then pronounced judgment, consigning him to San Quentin for a period of twenty-five years.

Up to this time the defendant had manifested a dreamy disposition and seemed to have little conception of the gravity of the charge against him. But when the sentence of the court was told him by the interpreter, he immediately gave away and fully awakened to the future prospects of his life. He wept bitterly and the statements made to him that by good conduct he could greatly reduce his term did not seem to alleviate his condition.

An agreement having been made by his counsel, R. M. Swain, and the District Attorney, the charge of robbery was then dismissed, on motion of the prosecuting officer. Thus ends the case. About fourteen years imprisonment is the time by which he can meet the penalty of the law, if he preserves his credits at the institution.—*S. R. Republican.*

Startling Discovery.

The discovery by the inhabitants of a locality hitherto unvisited by the pestilent scourge of fever and ague, that it exists in their very midst, is decidedly startling. Such discoveries are made every season, in every part of the Union. Subsequently, when it is ascertained, as it invariably is at such times, through the valuable experience of some one who has been benefitted and cured, that Hostetter's Stomach Bitters is a thoroughly efficacious eradicator of the malarial poison, and a means of fortifying the system against it, a feeling of more security and tranquility reigns throughout the whole neighborhood. Besides the febrile forms of malarial disease, dumb ague and ague cake are removed by the potent action of the Bitters, to which science also gives its sanction as a remedy for rheumatism, dyspepsia, constipation, liver complaint, debility, Kidney troubles, and all diseases impairing the organs of digestion and assimilation.

OUR CITY DADDIES.

The Committee on Fire Apparatus and Water Supply Given Further Time.

The Board of Trustees of Sonoma met in regular monthly session last Wednesday evening. President McHarvey occupied the chair, and for the first time in several months a full Board was present.

After the minutes of the August meeting had been read and approved the Chairman called upon the special Committee on Fire Apparatus and Water Supply, Trustees Poppe and Wegner, for a report.

The Committee stated that they had nothing new to report and referred the Board to Dr. Lawrence for further information.

Trustee Lawrence stated that he had a large supply of artesian water on his premises on Terrace Hill, and had already laid 350 feet of pipe, but as he was not in a position just at present to push the work through, he would have to wait awhile and see what turn matters would take.

Trustee Manuel then moved that said committee be given another month's time in which to hand in its final report. The motion was seconded by Trustee Lawrence and carried.

The following bills were then read and ordered paid: A. Fouts, labor, $5.50; R. B. Lyon, work, $1.50; H. H. Granice, printing, $10.70; G. W. Sparks, services, $21; Wm. Parish, labor, $27.50.

Trustee Poppe reported favorably on the bill of H. H. Granice, presented at last meeting of the Board for printing blanks, and a warrant was ordered drawn in his favor for $5.

The Clerk was ordered to draw warrants for all the bills except that of H. H. Granice for $10.70, there not being sufficient money in the Treasury to meet all the obligations.

The Board then adjourned.

SUPERIOR COURT PROCEEDINGS.

DEPARTMENT ONE—PRESSLEY, JUDGE.

Estate Benjamin Joy—Continued.

Estate of John Shearer—Will admitted. Executor appointed without bonds.

Estate of Robert W. Melton et al., minors—Continued to September 11th.

Estate of Sarah Stuart—Final account and distribution postponed.

Estate of William Keys—Final account settled and allowed.

Estate Frederick Hess—Family allowance of $100 per month set aside and sale of personal property confirmed.

Estate of G. Maggetti—Continued.

Estate of Jane P. Hailman—Decree of final distribution.

Page vs. Cannon—Set for September 13th.

The People vs. Michael Coli—Motion for a new trial argued and submitted, defendant remanded.

King vs. Smith—Continued to September 17th.

Martin O'Reilly vs. James Clark et al.—Motion for new trial continued to September 11th.

In the matter of the naturalization of Jacob Cia—Applicant admitted to citizenship.

DEPARTMENT TWO—BUTLEDGE, JUDGE.

George P. Noonan, assignee, etc., vs. Kate F. Warfield—Continued to September 17th.

Arizona Lumber Company vs. Meeker et al.—Dropped from the calendar, to be restored on five days' notice from either party.

Michael Cleary vs. Bridget Cleary—Continued to October 1st.

J. H. Benson vs. Elizabeth Ryan et al.—Decree of foreclosure and judgment for plaintiff for $611 47; $150 for attorney fees and costs.

E. B. Perrin vs. Henry Coffey—Demurrer to second amended complaint argued; defendant ten days to reply; demurrer then to be considered and submitted.

Arthur Solomon vs. Guy E. Grosse—Demurrer to second amended complaint sustained; ten days to amend.

Cronin vs. Carty—Plaintiff and defendant each ordered to pay one-half of referee's fees and reporter's fees.

O'Reilly vs. Green Hinkston—Trial set for September 15th.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that everyone without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your Throat, Lungs or Notsrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

The Union is the leading commercial hotel of Sonoma valley. *

SIGNS OF CHARACTER.

A Study of the Face—Meaning of Physiognomical Indications.

The morals of form and face are apparent as the color of one's hair to those who find men and women worth study. Emerson says "a man finds room in the few square inches of his face for all the traits of his ancestors," which can hardly be gratifying to the manes of most ancestors. "The size of the nose is the measure of power," the writers on physiogomy tell us. "All hollows in the face denote weakness," so that a flat face has something in its favor, being wholesome and strong, denoting steady working power. "The larger the lung and nostril, the greater the size and power of the heart," and the force of the whole nature. Full lower cheeks are signs of good digestive power, the full rolling underlip of a sympathetic nature, easily moved; but the thick, straight lip is cruel and coarse. The full upper lip denotes affection, and the old painters always drew such tender lips for the Madonna and the child. The mouth like a Cupid's bow, beautiful as it is, is given to coquetry and experiments in love.

The long upper lip denotes faithfulness, but beware, above all things, of the woman with the upper lip which hardly moves in speaking. There can scarcely be a worse feature in the face, for it is never found without a coldly false, vindictive nature behind it. Beware of the woman who smiles to one side of the mouth, for she is tricky herself and suspicious of others. No matter how gifted, how lovely her taste in dress or perfect her manners, if you would be safe strike off from your acquaintance the woman who shows either of these signs. They are born mischief makers, in neighborhoods, in church, in society. The large, projecting eye is that of a chatterer and a liar, in man or woman. The full eyes of too many Madonnas are those of arrant hypocrites to those who read features. The eye, long rather than round, but well opened, nobly set under the brow, with some depth and reserve, is that chosen by the Greek sculptors for ideal beauty. Large eyes denote command. In historical collections you will notice the beautiful large eyes of the early queens of England. The deeper set eye is one of reflection and self command, always enlarging with muscular exercise and tonics.

The almond eye, praised as it is, belongs to the harem, and is no sign of a straightforward or virtuous nature. Full, white eyelids are beautiful, but the physiognomist does not choose them for the first to trust. They are secretive eyes and watchful of self interest. The eye with drooping lids, slanting ever so slightly to the outer corner, is that of an intriguante. See the earlier portraits of the Empress Eugenie. Sorrow and self communing have made an honester woman of her today, with loss of crown and beauty and ambition. Eyes which slant ever so little to the inner corner are prying, inquisitive and treacherous. Women with such eyes lie without reason, apparently without knowing it. They are bad neighbors in a village or a boarding house. Pity the woman whose lips smile when her eyes do not, for she is the product of an artificial life, and has probably never known a faithful friend or an unselfish person in her life. The face of Patti is such a woman, and the pain of her set, sweet, artist smile and utterly unsmiling eyes is sore to every true woman.

Confused or broken wrinkles on the forehead are signs of a confused understanding, a weak mind, and often a weak body. Deep wrinkles under the chin and around the neck belong to the easy going persons, not inclined to any labor. When found on persons of large brain they indicate characters of great mental vigor, capable of hard and protracted mental labor. Lines down the sides of the nose, which deepen in talking, are evidence of a malicious and dishonest character. Wrinkles across the top of the nose are indications of command, as in those who govern soldiers and sailors, in some teachers and parents of good executive ability and will. Dimples near the corners of the mouth are signs of approbativeness and mirth. Dimpled hands in fair persons show amative disposition. Thick eyelashes show warm passions. Blue eyes with black hair show great ability and control of feelings. Persons of this type carry out their plans secretly while affecting great frankness. Dark eyes with fair hair indicate strength and fineness. Light brown hair with a golden tinge betokens excitability and exaltation, often leading to expression by pen or voice. Let people people with stiff, straight hair be consoled, for such it is easier to be honest and honorable than to be otherwise.—Shirley Dare.

Cases of Smokers' Vertigo.

Dr. Decaisne is reported as having recently investigated a number of cases of vertigo in smokers. Out of 63 patients, 49 were between 50 and 66 years of age. More than half of them suffered, in addition, from digestive troubles, with constipation alternating with diarrhœa, insomnia, palpitations, dyspnœa and diuresis. In a third of the number there was marked intermittence of the pulse, and granular pharyngitis, while others suffered from aphthæ, amblyopia, etc. Thirty-seven were persons who smoked habitually on an empty stomach; and these suffered from vertigo, principally in the morning. The vertigo generally coincided with suppression of perspiration and diminished excretion of the urine. The treatment consisted mainly in regulating or suppressing the cause, but 33 out of 37 patients ceased to suffer on merely refraining from smoking on an empty stomach.—New York Medical Record.

Child Labor in Germany.

The German laws are as near the ideal as any. Children under 12 cannot be employed in factories; those under 14 must not labor beyond six hours a day; those between 14 and 16 may be held to labor ten hours, and no more. They must be allowed all Sundays and all holidays, and regularly one hour at noon, and half an hour in the forenoon and half an hour in the afternoon as resting times. This law is guarded by provisions so rigid that an American employer would denounce them as burdensome. Too much cannot be done to prevent the feeding of child life into our machines.—Globe-Democrat.

Consumption Surely Cured.

To THE EDITOR—Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their express and postoffice address. Respectfully, T. A. SLOCUM, M. C., 181 Pearl st., New York.

His Business Booming.

Probably no one thing has caused such a general revival of trade at E. Wegner's Drug Store as his giving away to his customers of so many free trial bottles of Dr. King's New Discovery for Consumption. His trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size $1. Every bottle warranted.

Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with Headache, you are fidgetty, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap, bad whisky, which stimulate you for an hour, and then leave you in worse condition than before. What you want is an alterative that will purify your blood, start healthy action of Liver and Kidney's restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at E. Wegner's Drug Store.

Bucklen's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by E. Wegner.

The Union Hotel is first class in every respect.

R. D. Moore of the Occidental keeps a first-class house.

An Explanation

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively unknown—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Biliousness, and all are caused by troubles that arise from a diseased condition of the Liver which in performing its functions finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, alar ia, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

LEGAL.

Summons.

IN THE SUPERIOR COURT, IN AND for the County of Sonoma, State of California.

V. BULOTTI, Plaintiff,
vs.
Mrs. Maggie McDonell, widow of R. A. McDonell, John McDonell, Mary McDonell, daughter of Donald McDonell, Margery McDonell, Bell McDonell, Nancy McDonell, Christy McDonell, Alexander McDonell, son of Donald McDonald, Flora Kennedy, Catharine Kennedy, Flora McDonell, Maggie McDonell, Mary J. McDonell, daughter of G. A. McDonell, Alexander McDonell, son of G. A. McDonell, Donald McDonell, son of G. A. McDonell, Defendants.

Alias. Action brought in the Superior Court, in and for the County of Sonoma, State of California, and the complaint filed in the office of the Clerk of said Superior Court.

The People of the State of California send greeting to Mrs. Maggie McDonell, widow of R. A. McDonell, John McDonell, Mary McDonell, daughter of Donald McDonell, Margery McDonell, Bell McDonell, Nancy McDonell, Christy McDonell, Alexander McDonell, son of Donald McDonell, Flora Kennedy, Catharine Kennedy, Flora McDonnell, Maggie McDonell, Mary J. McDonell, daughter of G. A. McDonell, Alexander McDonell, son of G. A. McDonell, Donald McDonell son of G. A. McDonell, Defendants.

You are hereby required to appear in an action brought against you by the abovenamed plaintiff, in the Superior Court, in and for the said County of Sonoma, State of California, and to answer the complaint filed therein within ten days (exclusive of the day of the day of service) after the service on you of this summons—if served within this county; or, if served elsewhere, within thirty days.

The said action is brought to obtain a judgment of partition of Lot No. 52, situate in the Town of Sonoma, Sonoma county, State of California, according to the rights of the respective parties; or, if a partition cannot be had without material injury to those rights, then the premises be sold and the proceeds applied:

1st—To the payment of the general costs of this action.

2d—To the cost of reference.

3d—That the residue be divided between the parties in proportion to their respective interests, and for other proper relief.

All of which will more fully appear from plaintiff's amended complaint on file herein, to which special reference is hereby made.

And you are hereby notified that if you fail to appear and answer the said complaint, as above required, the said Plaintiff will apply to the Court for the relief demanded in the amended complaint.

Given under my hand and the seal of the Superior Court, in and for the said County of Sonoma, State of California, this 13th day of July, in the year of our Lord one thousand eight hundred and eighty-eight.

(SEAL.)

J. F. MULGREW, Clerk.
By L. W. JULLIARD, Deputy Clerk.

OUR PREMIUMS

For 1888.

THIS PAPER

—WITH—

THE SAN FRANCISCO

WEEKLY CALL

—OR—

THE SAN FRANCISCO

MORNING CALL

AS PREMIUMS FOR THE

PRESIDENTIAL YEAR.

THE SAN FRANCISCO WEEKLY CALL is a handsome eight-page paper. It is issued every Thursday, and contains all of the important news of the week, gleaned from every quarter of the globe, complete up to date of publication. It contains interesting special correspondence from all of the principal cities of the world and a vast amount of the best selected and original general literature. It furnishes the latest and most reliable financial news and market quotations, and gives special attention to horticultural and agricultural news, and is in every respect a first-class family paper, appealing to the interest of every member of the household. Every subscriber to THE WEEKLY CALL gets a

HANDSOME NEW MAP

Of California and Nevada

Beautifully printed in colors, showing every railroad, postoffice and town in the State, with tables of population, etc.

THE WEEKLY CALL will contain full reports of the

PRESIDENTIAL CAMPAIGN.

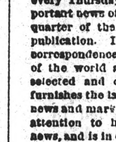
THE MORNING CALL

(SEVEN ISSUES A WEEK)

Is a live metropolitan daily. It has the LARGEST CIRCULATION and is recognized as being the LEADING NEWSPAPER of the Pacific Coast. Either of the above papers we will send postpaid as a premium on receipt of the following subscription prices for the combination:

The "Weekly Call" and Index-Tribune," $3 50 per year.

The "Daily Call" and "Index-Tribune," $7 per year.



PARKER'S HAIR BALSAM

Cleanses and beautifies the hair. Promotes a luxuriant growth. Never Fails to Restore Gray Hair to its Youthful Color. Cures scalp disease and hair falling. 50c. at Druggists.

PARKER'S GINGER TONIC

Invaluable for Coughs, Colds, Inward Pains, Exhaustion.

Notice to the Public.

NOTICE IS HEREBY GIVEN THAT I WILL not be responsible for any debts contracted by any person other that myself. GEO. DIEBOLD.
Sonoma, July 28, 1888. jy28 4w

MISCELLANEOUS.

Pierce's Pleasant Purgative Pellets

The Original LITTLE LIVER PILLS.

PURELY VEGETABLE! PERFECTLY HARMLESS!

Unequaled as a LIVER PILL. Does not gripe. ONE PELLET A DOSE.

SMALLEST, CHEAPEST, EASIEST TO TAKE.

Beware of Imitations, containing Poisonous Minerals. Always ask for Dr. Pierce's Pellets, which are little Sugar-coated Pills, or Anti-bilious Granules.

Being Purely Vegetable, Dr. Pierce's Pellets operate without disturbance to the system, diet, or occupation. Put up in glass vials, hermetically sealed. Always fresh and reliable. They are a gentle laxative, or an active purgative, according to size of dose.

SICK HEADACHE,

Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the stomach and bowels, are promptly relieved and permanently cured by the use of Dr. Pierce's Pleasant Purgative Pellets. In explanation of the remedial power of these Pellets over so great a variety of diseases, it may truthfully be said that their action upon the system is universal, not a gland or tissue escaping their sanative influence. Sold by druggists, for 25 cents a vial. Manufactured at the Chemical Laboratory of WORLD'S DISPENSARY MEDICAL ASSOCIATION, No. 663 Main St., Buffalo, N. Y.

$500 REWARD

is offered by the manufacturers of Dr. Sage's Catarrh Remedy, for a case of Catarrh in the Head which they cannot cure.

SYMPTOMS OF CATARRH.—Dull, heavy headache, obstruction of the nasal passages, discharges falling from the head into the throat, sometimes profuse, watery, and acrid, at others, thick, tenacious, mucous, purulent, bloody and putrid; the eyes are weak and watery; there is ringing in the ears, deafness, hacking or coughing to clear the throat, expectoration of offensive matter, together with scabs from ulcers; the voice is changed and has a "nasal twang"; the breath is offensive; smell and taste are impaired; there is a sensation of dizziness, with mental depression, a backing cough and general debility. Only a few of the above-named symptoms are likely to be present in any one case. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is more common, more deceptive and dangerous, or less understood by physicians.

By its mild, soothing, and healing properties, Dr. Sage's Catarrh Remedy cures the worst cases of Catarrh, "Cold in the Head," Coryza, and Catarrhal Headache.

Sold by druggists everywhere; 50 cents.

"Untold Agony from Catarrh."

FRED. W. HAUSNER, the famous mesmerist, of *Ithaca, N. Y.*, writes: "Some ten years ago I suffered untold agony from chronic nasal catarrh. My family physician gave me up as incurable, and said I must die. My case was such a bad one, that every day, towards sunset, my voice would become so hoarse I could barely speak above a whisper. In the morning my coughing and clearing of my throat would almost strangle me. By the use of Dr. Sage's Catarrh Remedy, in three months, I was a well man, and the cure has been permanent."

"Constantly Hawking and Spitting."

THOMAS J. RUSHING, Esq., *4908 Pine Street, St. Louis, Mo.*, writes: "I was a great sufferer from catarrh for three years. At times I could hardly breathe, and was constantly hawking and spitting, and for the last eight months could not breathe through the nostrils. I thought nothing could be done for me. Luckily, I was advised to try Dr. Sage's Catarrh Remedy, and I am now a well man. I believe it to be the only sure remedy for catarrh now manufactured, and one has only to give it a fair trial to experience astounding results and a permanent cure."

A complete Treatise on Catarrh, giving valuable hints as to clothing, diet, and other matters of importance, will be mailed, postpaid to any address, on receipt of a two-cent postage stamp. Address,

World's Dispensary Medical Association,
No. 663 Main Street, BUFFALO, N. Y.

INVENTION has revolutionized the world during the last half century. Not least among the wonders of inventive progress is a method and system of work that can be performed all over the country without separating the workers from their homes. Pay liberal; any one can do the work; either sex, young or old; no special ability required. Capital not needed; you are started free. Cut this out and return to us and we will send you free, something of great value and importance to you that will start you in business, which will bring you in more money right away, than anything else in the world. Grant outfit free. Address TRUE & Co., Augusta, Maine.

Of Interest to Ladies.

We will send a FREE SAMPLE of our wonderful specific for female complaints to any lady who wishes to test its efficacy before purchasing. Send stamp for postage. BAKER REMEDY CO., Box 104, Buffalo, N. Y.

HARPER'S MAGAZINE.

ILLUSTRATED.

HARPER'S MAGAZINE is an organ of progressive thought and movement in every department of life. Besides other attractions, it will contain, during the coming year, important articles, superbly illustrated, on the Great West; articles on American and foreign industry; beautifully illustrated papers on Scotland, Norway, Switzerland, Algiers, and the West Indies; new novels by William Black and W. D. Howells; novelettes, each complete in a single number, by Henry James, Lafcadio Hearn and Amelie Rives; short stories by Miss Woolson and other popular writers; and illustrated papers of special artistic and literary interest. The Editorial Departments re conducted by George William Curtis, William Dean Howells, and Charles Dudley Warner.

Postage Free to all subscribers in the United States, Canada and Mexico.

The volumes of the MAGAZINE begin with the Numbers for June and December of each year. When no time is specified, subscriptions will begin with the Number current upon receipt of order.

Bound Volumes of HARPER'S MAGAZINE, for three years back, in neat cloth binding, will be sent by mail, postpaid, on receipt of $3 00 per volume. Cloth Cases, for binding, 50 cents each, by mail postpaid.

Index to HARPER'S MAGAZINE, Alphabetical, Analytical and Classified, for volumes 1 to 70, inclusive, from June, 1850, to June, 1885, one vol., 8vo. Cloth, $4 00.

Remittances should be made by Postoffice Money Order or Draft, to avoid chance of loss.

Newspapers are not to copy this advertisement without the express order of Harper Brothers.

Address. HARPER BROTHERS, New York.

The BUYERS' GUIDE is issued March and Sept., each year. It is an encyclopædia of useful information for all who purchase the luxuries or the necessities of life. We can clothe you and furnish you with all the necessary and unnecessary appliances to ride, walk, dance, sleep, eat, fish, hunt, work, go to church, or stay at home, and in various sizes, styles and quantities. Just figure out what is required to do all these things COMFORTABLY, and you can make a fair estimate of the value of the BUYERS' GUIDE, which will be sent upon receipt of 10 cents to pay postage,

MONTGOMERY WARD & CO.
111-114 Michigan Avenue, Chicago, Ill.

1888.

Harper's Bazar.

ILLUSTRATED.

HARPER'S BAZAR is a home journal. It combines choice literature and fine art illustrations with the latest intelligence regarding the fashions. Each number has clever serial and short stories, practical and timely essays, bright poems, humorous sketches, etc. Its pattern sheet and fashion-plate supplement will alone help ladies to save many times the cost of the subscription, and papers on social etiquette, decorative art, house-keeping in all its branches, cookery, etc., make it useful in every household, and a true promoter of economy. Its editorials are marked by good sense, and not a line admitted to its columns that could offend the most fastidious taste.

The Volumes of the BAZAR begin with the first Number for January of each year. When no time is mentioned, subscriptions will begin with the Number current at the time of receipt of order.

Bound Volumes of HARPER'S BAZAR, for three years back, in neat cloth binding, will be sent by mail, postage paid, or by express, free of expense (provided the freight does not exceed one dollar per volume), for $7.00 per volume.

Cloth Cases for each volume, suitable for binding, will be sent by mail, post-paid, on recipt of $1.00 each.

Remittances should be made by Post-office Money Order or Draft, to avoid chance of loss.

Newspapers are not to copy this advertisement without the express order of Harper & Brothers.
